

8051 Lab

BLITZ

TRAINER

8051 LAB Trainer Kit from BLITZLOGIC, the market Leader in the Next generation of Micro Trainers that uses the latest Microcontrollers (PIC/8051/AVR/HC11/dsPIC/ARM) today as compared to other Trainers that still employs obsolete processor like 8085/6502/6800/68000. From the ground up, Blitzlogic Lab Trainer KiTs were designed with High Level Language in mind, and as such, C programming Language is employed to provide the necessary hands-on embedded skill that is required for tomorrow engineers today.

SPEC

1. **CPU Brd = AT89C51RB2; XTAL = 11.0592Mhz;
Power onLED indicator & Reset Switch;
FLIP Bootloader, No need Programmer;
RS232 built-in;**
2. **Lab Manual comes with 10 comprehensive LAB.**
3. **Compiler = uC/51 Compiler (8K Version)**
4. **12Vdc Power Wall Adapter.**
5. **Serial Cable.**

LABS

1. **LAB-1 LED**
2. **LAB-2 SWITCHES**
3. **LAB-3 7-SEG LED**
4. **LAB-4 LCD**
5. **LAB-5 KEYPAD**
6. **LAB-6 RS-232**
7. **LAB-7 DC MOTOR**
8. **LAB-8 SOUND**
9. **LAB-9 TIMER**
10. **LAB-10 INTERRUPT**
